Dear Mrs. Agnita Siska Pramasdyahsari,

We have received your submission. Thank you for your interest in Eurasia Journal of Mathematics, Science and Technology Education.

We are currently evaluating the quality and originality of your work. We will inform you as soon as there is a change in editorial status.

Title: Fostering Students' Mathematical Critical Thinking Skills on Number Patterns through Digital Book STEM PjBL

Authors: Agnita Siska Pramasdyahsari, Rina Dwi Setyawati, Sindi Nur Aini, Ukima Nusuki, Julia Puspita Arum, Iin Dwi Astutik, Wahyu Widodo, Nafiatuz Zuliah, Umyy Salmah

Please refer to your manuscript registration number **EJMSTE-20123-2023-R1** in all your official correspondence.

If you like to check the status of your manuscript please visit our submission website at <https://www.editorialpark.com/ejmste/view-manuscript/20123>.

Sincerely,
Editorial Office

Dear Mrs. Agnita Siska Pramasdyahsari,

Thank you for submitting your manuscript to Eurasia Journal of Mathematics, Science and Technology Education. Your manuscript numbered EJMSTE-20123-2023, entitled **Fostering Students' Mathematical Critical Thinking Skills on Number Patterns through Digital Book STEM PjBL** has been reviewed by expert reviewers in their field. The referees have suggested some revisions that will improve your manuscript. I invite you to respond to the referee comments and revise your manuscript accordingly.

I kindly request you to perform necessary corrections on the text according to reviewers' suggestions. Please make requested corrections and send as revised manuscript once again to our Journal.

To view manuscript, click the link below:

<https://www.editorialpark.com/ejmste/view-manuscript/20123>

Reviewer Comments:

Comments from Reviewer1 (Recommendation: MAJOR REVISION)

1. Keyword sort alphabetically
2. The number of research subjects is explained in the research method
3. explain the results of the interviews conducted in Preliminary field testing
4. explain the parts that are lacking in the Preliminary field testing, then which parts are revised in this stage
5. Explain why using only six students in this stage. Mention the theoretical arguments in selecting the number of research subjects (**Main field testing**)
6. Explain what differences occurred in this research stage (**Main field testing**)
7. Explain which parts are still lacking, and what kind of revisions were made by the researcher
8. Explain the theoretical arguments in selecting the twelve research subjects at this stage
9. Explain the differences from each stage of the results of the design, program, and learning, why there has been a significant increase
10. provide an explanation in English from the image displayed
11. The number of students described in this section is different from that described in the research methods section. in the research method section 12 students then explained there were 13 students. Which one is true?
12. Explain the main and accompanying impacts on students from the research results obtained, the explanation is still in a quantitative explanation.

There is no novelty that can be seen from the articles that are explained, it is still limited to explaining the quantitative results of the development of learning tools

13. conclusions that refer to recommendations in the learning process in order to achieve the objectives of this study do not yet exist

14. The writing of the majority of references is wrong and does not match the journal format. (reference)
15. Customize with journal templates (reference)
 - Use references from the last 10 years (reference)
 - Use references from reputable journals (reference)
16.
 - Translate to English, adjust it to a non-English reference template

[EJMSTE-20123-2023-R1-\(1\).docx](#)

Comments from Reviewer2 (Recommendation: ACCEPT)

This research paper is very interesting.

The introduction section is outlined with strong arguments, the theoretical basis and problems are clearly outlined.

The research methods section is detailed and complete.

The results and discussion section also presents clear data analysis results, analysed using accurate data, and clearly, in accordance with the research procedures that have been mentioned. The discussion is linked to other relevant research well and in-depth. Therefore, the recommendation for this manuscript is that it is suitable for publication (Accepted).

Dear Mrs. Agnita Siska Pramasdyahsari,

We are sending galley proof of your article in the attachment. Please kindly revise your paper and notify us of any possible errors within **2 days**. You can mark your corrections on the PDF file by using "Comments" feature of your favorite PDF reader program.

Comments:

- Could you please check for full compliance with the author submission guidelines, including the stylistic and bibliographic requirements of the journal?
- Could you please check in-text citations and references against the referencing style of the journal and provide missing DOIs where available?
- Could you please make sure that all references have corresponding in-text citations, and all in-text citations have corresponding references?
- Could you please check name(s) and affiliation(s) of the author(s)?
- Could you please provide information on ethical procedures followed for the study to be included in the declarations section of the article, including the committee title, approval date and document number for the ethics committee approval; information on informed patient consents; how sensitive or confidential personal data is kept private; etc.? If approval is not applicable, not required, exempted or waived for your study, please explain why.
- For each copyrighted image, could you please provide proof of permission from the lawful owner to reprint it in this article? For each image that you own the copyright, please clearly state this information.
- I highlighted some in-text citations which have no corresponding references, or require corrections. Could you please check them?
- Could you please fill in "Contribution of this paper to the literature" part on the second page using about three sentences?
- Could you please provide better quality higher resolution of the figure(s)?

Dear the Publication Office of EJMSTE,

It's awesome to see how our article that almost in the publication stage. To complete the procedures, I will complete all the things that have been listed. However, I have difficulty on how I should upload the revised document. I have checked the dashboard, however, there is no menu to upload the refinement document but only available the submit button is. Next, I would like to send the picture with a higher resolution and the refinement document. Can I send the Word document of this article ? (I will make the pdf file into Word and put the better image) is it applicable to this situation? related to the DOI number, for an article that we do not put on it, we could not find it anyway. Then for the missing references, I have added them to the reference list.

Thanks,
